

**SIHAMAL**™  
**CARBON**

E V O L U T I O N

# SHAMAL

The Shamal wheelset, since its first appearance in 1992, always represented a push beyond the standards, a challenge and a win for Campagnolo. If you are a granfondo rider or, simply, you know what you are riding, Shamal is THE wheel. We engineered for this icon a new makeup to take it to the next step of endurance cycling: carbon rim and wider internal channel. Its souls remains the same though: warm and tireless like the wind it takes the name from and like your long days on the bike.

1992

# SHAMAL

---

SHAMAL carbon DB is the first Campagnolo carbon wheelset with a different target in our range.

By target we mean **new application (road endurance)** and **new price point**.

The final aim is simple: share the Campagnolo technical boost with a larger audience.

To obtain this kind of product, we focused on innovating our technologies, design with taste and select key value features.

The result is an amazing high range cycling experience at an affordable price level.

## DIFFERENTIATED RIM PROFILE

---

35mm front, 40mm rear.

Reactivity on the rear, handling on the front.

UD finish without any paint for the most demanding eyes.

## C21 INTERNAL RIM CHANNEL

---

Dedicated to road endurance cyclists in love with large tires, ready to hit all kind of roads.

**BIG RATCHET**  
**36 TEETH**

---

Bigger ratchet (36T) for bigger torsions:  
SHAMAL will take you anywhere, with any kind  
of cassette, even on e-road/e-gravel.
