FEATURES

With our unique tread compound, we have revolutionized the sport of cycling. With the legendary **BlackChili Compound** we have answered the eternal question of the best balance of grip and rolling resistance for cycling. The latest polymers as well as specially developed carbon black particles and filler materials guarantee unique performance, be it on a road, gravel or a mountain bike, for time trialling or downhill.

All **Tubeless Ready** tires have been designed with versatility in mind. It's your choice: set up tubeless using Sealant or use an innertube.

The robust **4-ply construction** balances rolling resistance, low weight and puncture resistance.

CONTI KNOWLEDGE

Tubeless Ready:

For initial mounting we recommend to use at least 30 ml of Conti RevoSealant per tire. Then spin the tire (wheel) to spread the Conti RevoSealant inside of the tire and pump to the allowed maximum pressure. Check the pressure before the next ride and adjust to your desired PSI.

This tire is Hookless compatible to its limited max. pressure. Please check wheel instruction and tire packaging for detailed information.

Selected sizes also available as tube-type tire.
