

INSTRUCTIONS

IMPORTANT: Please completely understand all user instructions and safety information before using this product.

CONNECT CARTRIDGE TO INFLATOR

THREAD IN CLOCKWISE AND QUICKLY

*Do not activate a CO₂ cartridge until ready to use.

UNSCREW VALVE STEM KNOB

- Turn valve stem knob counter-clockwise until fully open.

IMPORTANT: Failure to open valve completely may cause injury or damage.

If you have a locking nut at the base of the valve stem, ensure it is tightened fully.

***IMPORTANT:** Presta valve **MUST** be opened before inflating tire. Failure to open valve completely may cause injury or damage to inflator.

*Hold CO₂ cartridge upright for best results.

INFLATE TUBE/TIRE WITH LOCKING NUT

Push black end of inflator onto valve stem, with cartridge attached.

Press down to compress the spring.

CO₂ will release.

INFLATE TUBE/TIRE - NO LOCKING NUT

Press on the outside of the tire, opposite the valve. At the same time press the **SPEED CHUCK** onto the valve stem until it is fully seated. Once in place, let go of the tire and inflate by pressing the inflator down, compressing spring.

***CAUTION:** CO₂ cartridge must be completely empty before removal from inflator. An activated cartridge removed from an inflator is dangerous! Do not over-inflate tire as injury can result.
