

OXFORD COVERS - USER INFORMATION

Warranty does not cover normal wear and tear, including stains from dirt or colour fade over time.

The cover must be properly utilised and maintained from the time of purchase. Please use the following guidelines to extend the life of the cover:-

1 The cycle must be clean & dry before covering – Dirt may cause abrasion damage

2 Do not machine wash or tumble dry. Clean only with a clean damp cloth & allow to air dry

3 When in use ensure the cover is clean & dry before storing in the bag provided

4 It is natural for the cover to fade over time outdoors due to the effects of UV light. The use of Oxford Rainseal spray will slow down the fading process. Over time the outer surface of the cover will lose the ability to bead up water. Oxford Rainseal waterproofing spray can be used to re-protect and waterproof the fabric. Rainseal is ideal for all weather protection and should be applied every 6 months for best results. UV inhibitors also protects the fabric from harmful UV rays.

WARNING! BEWARE OF USING THIS BIKE COVER IN HIGH WINDS. STRONG GUSTS MAY BE UNDERNEATH THE COVER AND DAMAGE THE COVER. IF THERE IS ANY RISK OF THE BIKE BEING BLOWN OVER WITH THE COVER FITTED, DO NOT USE!

OXFORD RAINSEAL This remarkable spray is designed to waterproof and protect virtually any fabric, especially polyester, cotton and nylon

- Rain droplets simply bead-up and run off the fabric surface
- Forms an invisible barrier and protects against water, dirt oil
- UV inhibitors give protection against the sun's harmful rays
- Re- apply every 6 months
- More environmentally friendly than silicon-based products and gives better long term protection

Functions

- Waterproofing & UV protection
